PHOTOSHOP® CS2 EXTREME

PHOTOSHOP CS2 EXTREME is a custom class only. Students will explore advanced concepts, building on your existing knowledge of Photoshop. Color correction and adjustment, masking and retouching techniques, and special effects, while creating (or modifying) an actual project or working with samples of your projects. We also cover the best CS2 Integration tips and tricks and skills for proper preparation for print output.

Prerequisites: *Welcome to Photoshop CS2 and Photoshop CS2 Intermediate* or equivalent experience.

Attendees are welcome to bring and use their MacBooks or other laptops if they wish. Training and handouts are designed for the latest versions of **Photoshop CS2®**.

PHOTOSHOP EXTREME (6 Hour Hands-on course)

This is a day-long CUSTOM session dedicated to building (or modifying) an actual project and/or developing workflows for specific situations and projects. Goals and parameters are determined in advance, on a case-by-case basis.

Custom training rates vary by subject and number of students, starting at \$1100 per day. To quote your custom training, contact us at training@computertree.com.

Attendees receive: CD (Mac and Windows compatible) with lesson files, notes and instructions. Seating is limited to nine students. Individual student fee is \$299. \$279 per student for 3 or more. Educators are eligible for 25% off the individual fee per registering attendee for Intro and Intermediate classes. ComputerTree reserves the right to reschedule class dates with 72 hr. notice, due to low enrollment.

About the instructor: *Mical Fowler is a thought leader and reformed Art Director who has been shaking up the graphics status quo since the Macintosh appeared in 1984. Equally at home in print, multimedia and video design and production, he has taught hundreds of classes in professional graphics applications, including Photoshop®, InDesign®, Illustrator®, Acrobat®, Final Cut Pro®, Dreamweaver®, Flash® and others.*

Final Cut Pro® is a trademark of Apple Computer, Inc., registered in the U.S. and other countries. Photoshop®, InDesign®, Illustrator®, Acrobat®, Dreamweaver®, Flash® are trademarks and property of Adobe Systems Incorporated or other third parties registered in the U.S. and other countries.
