## ACROBAT® 8 PROFESSIONAL EXTREME

**ACROBAT 8 PRO EXTREME** enables you to create, edit, control, and deliver more secure, high-quality Adobe PDF documents. The PDF format has become the industry standard for data exchange.

**Prerequisites:** *Welcome to Acrobat 8 Professional* or equivalent experience.

Attendees are welcome to bring and use their MacBooks or other laptops if they wish. Training and handouts are designed for the latest versions of **Acrobat® 8 Professional**.

### ACROBAT 8 PRO EXTREME

(6 Hour Hands-on course)

This is a day-long CUSTOM session dedicated to creating (or modifying) a multi-section document or actual project based on the customer's needs. The goals and parameters will be determined in advance and will include use of tools for review, touch up, CS2 Suite Integration and Print Production Techniques.

Custom training rates vary by subject and number of students, starting at \$1100 per day. To quote your custom training, contact us at [training@computertree.com](mailto:training@computertree.com).

**Attendees receive:** CD (Mac and Windows compatible) with lesson files, notes and instructions. Seating is limited to nine students. Individual student fee is \$299. \$279 per student for 3 or more. Educators are eligible for 25% off the individual fee per registering attendee for Intro and Intermediate classes. ComputerTree reserves the right to reschedule class dates with 72 hr. notice, due to low enrollment.

**About the instructor:** *Mical Fowler is a thought leader and reformed Art Director who has been shaking up the graphics status quo since the Macintosh appeared in 1984. Equally at home in print, multimedia and video design and production, he has taught hundreds of classes in professional graphics applications, including Photoshop®, InDesign®, Illustrator®, Acrobat®, Final Cut Pro®, Dreamweaver®, Flash® and others.*
