

WELCOME TO AFTER EFFECTS® 7

WELCOME TO AFTER EFFECTS 7 is not a video editing application: it's the industry standard for creating motion graphics and visual special effects. Use After Effects to add professional pizzazz to video, commercials, movies and presentations, making it the perfect complement for Final Cut Pro, iMovie, Motion, Flash video and Adobe Premiere.

Attendees are welcome to bring and use their MacBooks or other laptops if they wish. Training and handouts are designed for the latest versions of FINAL CUT PRO®.

WELCOME TO AFTER EFFECTS 7
(6 Hour Hands-on course)

Course covers After Effects 7 for Mac and Windows.

Attendees receive: CD (Mac and Windows compatible) with lesson files, notes and instructions. Seating is limited to nine students. Individual student fee is \$379. \$359 per student for 3 or more. Educators are eligible for 25% off the individual fee per registering attendee for Intro and Intermediate classes. ComputerTree reserves the right to reschedule class dates with 72 hr. notice, due to low enrollment.

About the instructor: Mical Fowler is a thought leader and reformed Art Director who has been shaking up the graphics status quo since the Macintosh appeared in 1984. Equally at home in print, multimedia and video design and production, he has taught hundreds of classes in professional graphics applications, including Photoshop®, InDesign®, Illustrator®, Acrobat®, Final Cut Pro®, Dreamweaver®, Flash® and others.
